

BIO – TY BOLLINGER

Ty Bollinger is a happily married husband and father, a CPA, health freedom advocate, cancer researcher, former competitive bodybuilder, and author of the best-selling book "*Cancer – Step Outside the Box.*" After losing several family members to cancer (including his mother and father), Ty refused to accept the notion that chemotherapy, radiation, and surgery were the most effective treatments available for cancer patients. He began a quest to learn all he possibly could about alternative cancer treatments and the medical industry. What he uncovered was shocking. There is ample evidence to support the allegation that the "war on cancer" is largely a fraud and that multinational pharmaceutical companies are "running the show."

In 2006, after almost a decade of cancer research, he published "*Cancer – Step Outside the Box*" which (now in its 5th edition) has become a best-seller (over 100,000 copies sold) and has been called the "*most eye-opening book since 1984.*" Ty has now made it his life mission to share the most remarkable discovery he made on his quest: the vast majority of all diseases (including cancer) can be easily prevented and even cured without drugs or surgery. Speaking from personal experience and extensive research, Ty has touched the hearts and changed the lives of thousands of people around the world.

In 2011, Ty collaborated with his colleague, Dr. Michael Farley, to edit and publish a revolutionary book on medicinal herbs entitled, "*A Guide to Understanding Herbal Medicines and Surviving the Coming Pharmaceutical Monopoly.*" This book is destined to become a favorite reference for experienced herbalists and natural health newcomers alike. Drawing on over three decades of personal experience, observation, and research of Dr. Michael Farley, the book provides a refreshing and enlightening yet simple to understand guide on the medicinal uses of natural herbs. The book simplifies and demystifies herbal medicine and puts it back within the grasp of all who want to reclaim some control over their health options.

Ty speaks frequently to health groups, at seminars, conferences, churches, and is a regular guest on multiple radio shows and writes for numerous magazines and websites. Ty's websites are www.CancerTruth.net and www.SurvivalHerbs.com.
